Our performance is  
the result of your  
expectations

VIDELIO is an international group, with a significant capital base. Our results mean that we can continue to grow and guarantee you both short and long-term support for your projects.

## Teams to support you on the path to success

VIDELIO includes over 700 staff of 29 different nationalities distributed over nearly 30 sites throughout the world, who share a common objective:

To provide you with cutting edge expertise and innovative solutions.

In addition, we can call upon qualified, reliable partners, working together on the success of your projects

Regional offices

With Videlio-HMS, you can count on being supported, before the design of your project, during its implementation and beyond. Behind your success lies the technical expertise and experience of engineers and developers who are highly qualified in three complementary specialist fields: **Engineering, Systems and Services**. At every moment we are at your side, providing professional solutions which improve your organization and your performance.

**Engineering:  
designing your custom-made  
project**

Whatever the nature of your project, our teams factor in all the parameters of your site and your networks in order to design a system that is innovative, complete and upwardly compatible. Analysis and audits, drawing up the technical specification, cost requirements, architecture sign, project management... Our expert's work will allow you to avoid a maximum amount of pitfalls when building your system.

**System:  
your link to success**

Networks, telecoms, security, audio, lighting, video... Our experts assume responsibility for the deployment, installation and implementation of solutions engineered by our design offices throughout the world. Overall control of your project will ensure perfect fulfillment of the design brief, in accordance with the technical specifications and deadlines.

**Services:  
supporting you every day  
and beyond...!**

Training, hot-line, maintenance, delegation of staff, concierge service... we can offer you a complete range of services so that you can optimize your investment and focus on your own specialist field, free of distractions.

You can count on us well  
before your project begins...  
and long after

Every project has its own purpose and needs. VIDELIO-HMS designs systems in consultation with our clients to meet the requirements for each facility. We assist you through all phases to get the systems up and running on time and within your budget. Our highly specialized project management team focuses on rapid performance and professional installation bringing together hardware, software, resources and logistic elements to guarantee that the final product will be in compliance with the initial specs.

## ENGINEERING

### DESIGNING YOUR CUSTOM-MADE PROJECT

Whatever the nature of your project, our teams factor in all the parameters of your site and your networks in order to design a system that is innovative, complete and upwardly compatible. Analysis and audits, drawing up the technical specification, cost requirements, architecture sign, project management... Our expert's work will allow you to avoid a maximum amount of pitfalls when building your system.

For 30 years, the VIDELIO-HMS teams have been providing solutions that are both innovative and interactive, and have been doing so throughout the world.

Videlio-HMS has been able to build on its experience to develop an unequalled expertise meeting the requirements of the numerous constraints imposed by various industries. Combining functionality with performance, VIDELIO-HMS designs, deploys and incorporates turnkey entertainment solutions in complete coordination with other on-site activities.

A partner enhancing  
the value of your projects

# We create personalized solutions for you

VIDELIO-HMS is able to provide each customer with support right from consultation phase. Our knowledge of building and design environments combined with our excellent understanding of the latest technological advancements make VIDELIO-HMS an indispensable player in the market for entertainment solutions.

## CONSULTING AND DESIGN

The VIDELIO-HMS design team is a group of creative and experienced individuals that understand the complexities of interior design, architecture and trade engineering. We share the vision of all our clients and translate that vision into usable technology that works for your business. We assist you through all phases to get the systems online on time and on budget. Our highly specialized project management team focuses on performance, professionalism, and expedient delivery.

## ENGINEERING

The most important aspect of any project is proper engineering and documentation delivery. Our engineers are specialists in:

- Autodesk AutoCAD ●
- Autodesk Revit ●
- EASE ●
- Rendering ●

The final Construction, Design and Schematic documentation created by Videlio-HMS engineers are comprehensive and detailed.

## SYSTEMS

### YOUR LINK TO SUCCESS

Networks, telecoms, security, audio, lighting, video... Our experts assume responsibility for the deployment, installation and implementation of solutions engineered by our design offices throughout the world. Overall control of your project will ensure perfect fulfillment of the design brief, in accordance with the technical specifications and deadlines.

We live in a world of accelerating change where visual communication occupies an ever more central position. With a finger on the pulse of current and future markets, we anticipate, design and offer audio/visual solutions and related services to support our clients in the development of their internal and external communications strategy.

The guarantee of a  
successful project

# A partner enhancing the value of your projects

The delivery of every successful project begins with a concept. Our design team nurtures this concept and creates tangible engineering documentation to distribute amongst stakeholders and our project management professionals will continue to manage the project throughout its lifespan. As each project develops our teams gather in conference rooms, drafting tables and in front of computer screens to collaborate on each project. We execute disciplined time management so that all of our resources are focused on each project delivering the highest possible level of customer satisfaction.

- Scope of work creation and initialization
- Project Implementation Plan
- Change Process agreements and communication
- Documentation deliverables scheduling
- Value engineering during the life of the project
- Human resource Scheduling
- Trade coordination
- Systems commissioning

## SERVICES

SUPPORTING YOU  
EVERYDAY AND BEYOND!

Training, hot-line, maintenance, delegation of staff and service... we can offer you a complete range of long-term and short-term services so you can optimize your investment and focus on your business operations, free of distractions.

Focused on your success

VIDELIO-HMS provides technical support, maintenance, and repairs for A/V and Low Voltage equipment. As a preferred partner to the largest manufacturers in audio/visual equipment we excel in ensuring that you have optimum use of your systems.

# Our solutions for your creations

## **MANAGED SERVICES**

VIDELIO-HMS has invested in resources to ensure our catalog of products and services can manage your systems. We have a certified team of experts to monitor and support your systems. Our proactive monitoring approach will check your systems for events that require attention then focus on solutions to eliminate the problem. In most cases we will find the problems and execute the solutions before you even know any problem ever existed.

## **SERVICES AND MAINTENANCE**

VIDELIO-HMS offers several service programs that focus on reducing your costs over the long term, reducing your system downtime and improving your operations. The Maintenance Program provides detailed maintenance schedules. Through a collaborative approach, we work with you to decrease wasteful service delivery activities without sacrificing performance or quality. The result is a mutually beneficial outcome – your costs decrease while your satisfaction increases.

## **REPAIRS**

VIDELIO-HMS repair program provides product repair support for a wide range of manufacturers. We employ a vigorous inspection process to ensure no detail has been missed then promptly execute the repair solution in order to minimize the equipment downtime.
